

Dr. Steve Gallon III

District 1 Schools Are On The Move!

Committed To Success!

Failure Is Not An Option!

Dr. Steve Gallon III, District 1 School Board Member offers 10 Tips for Your Child's Learning and Academic Success this School Year!

1. **Expect Success** - Set and maintain high expectations for your child.
2. **Establish and Stick to a Routine** - Ensure that each day your child knows what to expect.
3. **Know the Principal and Teacher** - Meet and stay in touch with your child's principal and teachers throughout the year.
4. **Talk Everyday** - Talk with your child about school, how they feel, and what they learned.
5. **Read. Often.** - It is often said that children spend the first several years learning to read, and the rest of the lives reading to learn. Let them see you reading.
6. **Learn Always** - As the primary educator of your child, model and promote continuous learning at home.
7. **Lead by Example** - Children learn by example. Take time to learn a new skill and discuss the experience with them.
8. **Hold Your Child Accountable** - Teach them that learning is their "job" and that they are responsible for their own success. Period.
9. **Prioritize Study Time** - At home, as a matter of priority, encourage your child to work first and play second.
10. **Provide A Place For Homework** - Be sure your child has all the tools needed to do his or her best ---which ultimately is a quiet place to study and work.

Wishing you and your child a successful 2017-2018 School Year!
